Explore Energy Savings

Energy efficiency is a sound business practice that improves profitability, reduces greenhouse gas emissions, and conserves natural resources. As energy costs increase, investing in energy efficiency is the best way to protect your business against these rising prices. You can reduce your restaurant's energy consumption by following the cost saving tips outlined below:

- 1 - Select ENERGY STAR qualified appliances. While they could cost more up front, significantly lower utility bills can make up for the price difference.
- 2 - Cut idle time by only using the equipment that you need, when you need it.
- 3 - Maintain and repair leaky walk-in refrigerator gaskets, freezer doors that do not shut, etc.
- 4 - Recalibrate to stay efficient. Do a regular thermostat check on your appliances and reset if needed.

To learn more visit: www.energystar.gov

Features

- 1 **Find the Right Washer**
This unit uses only 0.8 gallons of water per rack. ENERGY STAR models like these use 25% less energy and water than standard models.
See Page 10
- 2 **Big Saver**
7.5 kW high efficiency heating elements and high efficiency glass windows make this unit a great energy saver.
See Page 8
- 3 **Stay Warm on a Budget**
Induction technology reduces energy costs when compared to butane, heats up faster and hotter, and is safer than other heating alternatives since there is no open flame.
See Page 9

ENERGY SAVINGS

Easily monitor and control the system from your computer, smart phone or tablet!

Enviro-Control™

- Controls evaporator fans, room temperature, Electronic Expansion Valve (EEV), compressor/ liquid line solenoid, defrost heaters and multiple alarms
- Demand defrost eliminates unnecessary defrosts
- Precise superheat control
- Automatic fan cycling control
- Reduced compressor runtime
- Convenient installation

ENVIRO-CONTROL* Controller **\$691.99**

*AVAILABLE AS A CUSTOM DESIGNED OPTION ONLY, MUST BE ORDERED AT TIME OF COOLER/FREEZER PURCHASE (NOT SOLD SEPARATELY)

Check This Out!

This electronic controller regulates your cooling system in order to increase efficiency and save on energy costs.

Fast-Trak™ Walk-Ins

- CFC free polyurethane insulation
- R134a refrigerant
- Digital thermometer
- Heavy duty hinges
- Deadbolt locking handle
- Four heights: 8'7" & 7'7" with floor, 7'4" & 8'4" floorless
- 15 year panel warranty
- Temperatures: 35° to 38°F or -10°F
- Exterior is 26 ga corrosion resistant stucco embossed coated steel
- 26", 30" or 36" wide self-closing door
- Cooler, freezer or combination cooler/freezer models available

BDO-100-G-ES

Holds five 18" x 26" standard full size baking pans in left-to-right positions.

ZEPHAIRE-200-G-ES

Full-Size HydroVection™ Ovens

- Unites convection cooking with humidity for faster results and greater yield
- Angle iron frame, all stainless steel exterior, 316 stainless steel liner
- Easy access, dual pane glass stainless steel dependent doors open simultaneously with one hand and are easy to clean
- 4 speed auto reversing fan for gentle to high speed cooking
- Retractable hand shower
- Five stainless steel oven racks

OVENS WITH HELIX TECHNOLOGY

- Innovative new Helix technology improves product quality while decreasing cook times
- Touchscreen control allows cooking with timer and core probe simultaneously
- Includes shelf timing, cooking compensation and multi-shelf recipes, holds up to 255 recipes
